

# **SAFETY DATA SHEET**

CONFORMS TO OSHA HAZARD COMMUNICATION STANDARD

(HCS) 29 CFR 1910.1200

#### **SECTION 1. IDENTIFICATION**

	ION				
Product identifier:	Compresyn® HD PLD ISO 32, 46, 68, 100, 150				
Part number:	HDPLDH, HDPLDJ, HDPLDK, HDPLDL, HDPLDM				
Identified uses:	Lubricant where there is no possibility of contact with food				
Uses advised against:	Not for use where there is the possibility of contact with food. Other uses advised against may be specified elsewhere in this SDS.				
<u>Supplier:</u>	Compresyn <sup>®</sup> W134 N5373 Campbell Drive Menomonee Falls, WI 53051 USA				
<u>Email contact:</u> <u>Non-emergency</u> <u>contact:</u> <u>Emergency telephone:</u>	info@compresyn.com Phone: 262-252-5690 Toll-free: 855-423-569 INFOTRAC:	D Fax: 262-781-3906

<u>Suitable extinguishing</u> <u>media:</u>	Extinguishing media include dry chemical, alcohol foam, and carbon dioxide. Do not use direct stream of water. Water may be used to keep fire-exposed containers cool.
<u>Unsuitable</u> extinguishing media:	Do not use direct stream of water.
Specific hazards:	Pressure build-up due to heat exposure may cause containers to rupture. Use water spray to keep containers cool.
Advice for firefighters:	Firefighters should wear full protective gear, including helmet. Use supplied-air breathing equipment for enclosed or confined space or as otherwise needed.

## SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations. Keep away from ignition sources. Wear protective equipment. Keep unprotected persons away.
Environmental precautions:	Prevent entry into sewers, waterways or confined areas by diking or impounding. Dike far ahead of spill for later recovery and disposal. Advise authorities if the product has entered or may enter sewers, watercourses, or extensive land areas.
<u>Methods for</u> <u>containment and</u> <u>cleaning up</u>	<ul> <li>Land spill: Stop leak if you can do so without risk. Recover free product using non-sparking tools. Add sand, earth, or other suitable absorbent material to the spill area. Recover by pumping or with suitable absorbents. Dispose of in accordance with national and/or local regulations relating to waste disposal.</li> <li>Water spill: Stop leak if you can do so without risk. Confine the spill immediately with booms. Remove from the surface by skimming or with suitable absorbents. Seek the advice of a specialist before using dispersants.</li> </ul>
SECTION 7. HANDLING AN	D STORAGE

Precautions for safe handling:	Keep away from heat and direct sunlight. Ensure good ventilation/exhaustion at the workplace.
<u>Conditions for safe</u> <u>storage, including any</u> <u>incompatibilities:</u>	Store in a cool, dry place in tightly sealed containers. Store out of direct sunlight. Do not store near heat, sparks, open flame, pilot lights, static electricity, or other sources of ignition. Do not store where temperature may exceed 49°C (120°F). Store away from oxidizing agents. Rotate stock.

## SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

	<u>Workplace exposure</u> <u>limits:</u>	<u>Chemical name</u> Polyalphaolefin	Exposure limit and source 5 mg/m <sup>3</sup> (mist), OSHA		
	Exposure controls				
	Engineering controls:	Provide exhaust ventilation or other engineering controls occupational exposure limits.	ventilation or other engineering controls to keep the airborne concentration of vapors below their respective osure limits.		
	Ventilation:	Jse in a well-ventilated area. See Engineering Controls.			
	Personal hygiene:	<b>3 1</b>	n thoroughly after contact, before breaks and meals and at the end of the work period. Product is readily removed n by waterless hand cleaners followed by washing thoroughly with soap and water.		
	Eye protection:	Chemical splash goggles or face shield in compliance with	plash goggles or face shield in compliance with OSHA regulations are advised when eye contact may occur.		
	Hand protection:	Any lined non-permeable rubber gloves.			
	Respiratory protection:		ipment is not normally required where there is adequate natural or sufficient ventilation, wear suitable respiratory equipment. A in absence of proper environmental control.

#### SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appe	earance / odor:	Clear lube oil with little or no odor	Upper flammability limit:	Not available
			Lower flammability limit:	Not available
<u>Phys</u>	ical state:	Liquid	Vapor pressure:	Nil
<u>Odo</u>	<u>r threshold:</u>	Not available	Vapor density:	
<u>рН:</u>		Not available		Not available
Melt	ing / freezing point:	Not available	Relative density:	0.84-0.86 (typical)
<u>Initia</u>	al boiling point	Not available		
and	boiling range:		Solubility in water:	Nil
<u>Flash</u>	<u>n point:</u>	475°F (246°C) min., ASTM D 92	Partition coefficient	Not available

		(n-octanol/water):			
Evaporation rate:	Nil	Autoignition temperature:	Not available		
	Net englischie	Decomposition temperature:	Not available		
<u>Flammability (solid, gas):</u>	Not applicable	<u>Viscosity:</u>	Not available		
SECTION 10. STABILITY A	AND REACTIVITY				
Reactivity:	Not reactive under normal conditions.				
Chemical stability:	Stable under recommended conditions.				
<u>Possibility of</u> hazardous reactions:	Hazardous reactions are not expected to occur.				
<u>Conditions and</u> materials to avoid:	Avoid contact with heat, open flames, and oxidizing	agents.			
<u>Hazardous</u> <u>decomposition</u> <u>products:</u>	Carbon monoxide, carbon dioxide, smoke and irritating vapors as products of incomplete combustion.				
SECTION 11. TOXICOLOG	GICAL INFORMATION				
Information on likely roo	utes of exposure				
Eye contact:	No known significant effects or critical hazards.				
Skin contact:	No known significant effects or critical hazards.				
Inhalation:	No known significant effects or critical hazards.				
Ingestion:	No known significant effects or critical hazards.				
<u>Component</u> information:	<u>Components</u> Polyalphaolefin	<u>LD<sub>so</sub></u> >5000 mg/kg (oral, rat)	<u>LC₅₀</u> >5.2 mg/l/4h (inhalation, rat)		
	chemical and toxicological effects				
<u>Symptoms:</u>	Please see Section 4 of this SDS for symptoms.				
Delayed and immediate	effects, and chronic effects, from short and long-ter	ms exposure			
Effects:	No further relevant information available.				
Carcinogenicity:	This product does not contain a carcinogen or poter	ntial carcinogen as listed by NTF	P or IARC.		
Numerical measures of	Not determined				
toxicity: SECTION 12. ECOLOGICA					
<u>Ecotoxicity:</u>	Not available	- (-) -			
<u>Component</u> information:	<u>Components</u>	<u>L(E)C<sub>50</sub></u>			
<u>internation.</u>	Polyalphaolefin	>1000 mg/l/48h (Daphnia	a magna)		
<u>Persistence and</u> degradability:	Not determined				
<u>Bioaccumulative</u> potential:	Not determined				
Mobility in soil:	Not available				
Other adverse effects:	Not determined				
SECTION 13. DISPOSAL C	CONSIDERATIONS				
Waste treatment methods:					
SECTION 14. TRANSPORTATION INFORMATION					

#### SECTION 14. TRANSPORTATION INFORMATION

Dangerous goods descriptions may not reflect package size, quantity, end-use or region-specific exceptions that can be applied to shipments. Consult shipping documents for material-specific descriptions.
